

Day 1**Thursday - September 29**

Registration, badge pick-up : 9-10.30

Hours	Title	Speaker
10.00-10.10	Course opening	<i>Marian Klinger (Head of Dept.), Mariusz Kuzstal, Poland</i>
10.10-10.40	Vascular access: Fistula always first?, graft and catheter always last ?	<i>Jan Tordoir, Netherlands</i>
10.40-11.10	Simulation training in vascular access	<i>Jose A.Ibeas, Spain</i>
11.10-11.40	Catheter malposition or malfunction - what can I do?	<i>Maria Guedes Marques, Portugal</i>
15 min. coffee break		
11.55-12.25	Central vein catheters for hemodialysis - new technology, insertion techniques and complications	<i>Maurizio Gallieni, Italy</i>
12.25-12.55	CVC infection: prevention and treatment in 2016	<i>Jose A.Ibeas, Spain</i>
12.55-13.25	Central vein obstruction - the role of interventional radiologist	<i>Luc A. Turmel-Rodrigues, France</i>
13.25-13.55	Translumbal and other rare catheter insertions for hemodialysis	<i>Jarosław Leś, Poland</i>
45 min. lunch (restaurant in the hospital or catering)		
14.45-15.30	Kidney biopsy: indications and safety issues . Transvenous renal biopsy in a patient with higher risk of bleeding.	Bernd Hohenstein , Germany
15.45-17.30 Practical Training Program (group A/B)		

Hours	Title	Speaker
9.00-9.30	AVF monitoring and timing of interventions	<i>Jan Malik, Czech Republik</i>
9.30-10.00	Infectious and noninfectious complications of AVF	<i>Tomasz Gołębiowski, Poland</i>
10.00-10.30	Preoperative vascular mapping and physical examination of AVF	<i>Krzysztof Letachowicz, Poland</i>
15 min. coffee break		
10.45-11.15	How to improve maturation and utilization of AVF	<i>Luc A. Turmel-Rodrigues, France</i>
11.15-11.45	Vascular access in special patients: equipped with CIED (cardiac implantable electronic device), octo- and nonogenarians	<i>Mariusz Kusztal, Poland</i>
11.45 - 13.45 Session of case presentations (quiz and discussion)*		
13.45-14.00	Current YNP activities & symposium summary - Ana Carina Ferreira (YNP president)	
45 min. lunch (restaurant or catering)		
14.45-16.30 Practical Training Program (group B/A)		

***Special session of case presentations** by course participants (5-8 presentations with educational values) from the field of vascular access creation, complications treatment, catheters, access monitoring and care and kidney biopsy .

Submitted abstracts will be scored by YNP board members. These with high score will be presented and awarded during the session.

Abstracts submission information

1. Abstract written in English must be submitted to ynp@era-edta.org no later than August 1.
2. Presenting author (underlined among authors) must pay the registration fee and attend the meeting.
3. Notification of acceptance with details how to prepare presentation will be sent by August 15.

4. The body of abstract is limited to 500 words and may be accompanied by table or figure. In conclusion didactic message should be underlined.

Practical Training Program during course

I.	A) Practical workshop on catheter placement “hands on” - exercises on phantoms. Tip and tricks during jugular and femoral catheter procedures	Day 1 for group A Day 2 for group B
	B) Sonography with duplex Doppler of kidneys	
II.	A) Physical examination of native vascular access	Day 1 for group B
	B) Duplex Doppler for vascular mapping (preop) and fistula assessment (immature vs mature fistulas)	Day 2 for group A
